

Grooming  
the bubbles of  
Innocence for  
new thoughts.

## One decade of milestones, another decade of journey.

Every journey brings with it a realm of new learnings, fresh ideas, and hope for a future of possibilities. Since inception of Scholars Global School in 2011, we have set a foundation for a whole new generation of education in Bahadurgarh. We aspire to give each child a dedicated and futuristic schooling experience and groom them to be invincible 'scholars'.

Set on a 56,000 sq ft of space with 55,000 sq ft of built-up ultra-modern infrastructure and facilities, Scholars Juniors is the next step forward in primary education in Sector-2, Bahadurgarh.

## What play can teach, words can't.

At Scholars Juniors, teaching through play is encouraged, especially through our in-house designed integrated programmes that are a blend of the best teaching-learning practices of national and international curriculum. This is equipped as the foundation of learning for children between 3 and 12 years of age, where our exceptional teachers diligently plan and prepare to support each child as per their individualistic needs.

### Links to Learning

Links to Learning, the pre-primary and primary years of education imparted at Scholars Juniors addresses all areas of a child's learning needs through ways that are fun-filled, activity-centric, challenging and engaging. At each stage of the primary years of schooling, teachers introduce new concepts and skills while reviewing and reinforcing existing skills.

#### Language & Literacy

Books, songs, and activities help children become comfortable with language and enhance their vocabulary.

#### Mathematics

Young kids begin to recognize shapes, colors and numbers through toys, games and basic puzzles.

#### The World & Me

Children start to develop basic self-help skills and begin to socialize by engaging in parallel play.

#### Wellness

Children make major strides in balance, coordination, and fine motor skills through scientifically designed activities.

#### Music

Singing songs, playing simple instruments and moving to music are an important part of daily routine.

#### Art

Activities that encourage scribbling and using a paintbrush help develop toddlers' fine motor skills.

#### English

Children will be able to speak in English, as well as learn words for family members and farm animals.

#### My Community & Environment

Children learn about the weather, insects and the concept of time. They begin to perform simple experiments.

## Facilitating a bundle of success tales.

Making a school engaging for children depends majorly on its cutting-edge facilities, infrastructure, and the environment. At Scholars Juniors, an exclusive campus for budding scholars, we also offer over 30+ facilities and activities during a weekly visit to our main campus, to let our young pupils learn from masters who use top-notch and well-maintained facilities like Toddlers Pool, Kids Zone, Vast Play Field, Open Air Classroom, Skating Rink, Tennis Courts, Robotics Lab and much more. This is how we enhance our students' journey to being future intellectual leaders.

### Air-conditioned and dedicated world-class amenities:

- Exclusive Play Zone
- Activity Room with large Toy Library
- Jr. Wing Library with Storytelling corner
- Auditorium with 400+ capacity
- Music/Dance • Art & Craft
- Spacious AV Room • Computer lab
- Theme based Digital Classrooms
- Splash Pool • Play Field • Skating
- Day care facility • Hygienic food served
- A/C Transport

When children see, they know, but when they interact - they feel, experience, and even understand better. Touch and feel is an aspect that goes a long way to hone children's capabilities and skills.

The school provides a unique educational experience that is beyond the stipulated syllabus and that connects us with the actual happenings in the world and their influence on us.

# Walls of fame for every leader of tomorrow.

Set within a safe and secure environment, Scholars Juniors is an exquisite primary campus complemented by the 21st century ambience, facilities, and child-friendly furniture to meet every child's needs, the extraordinary way. Uniquely designed air-conditioned campus with vast and bright rooms help students adapt to the learning space without a hustle, which supports them on their developmental journey to be smart and confident scholars. As the primary years of learning lay the foundation for their thriving future, as parents give your child the best experience with us, the masters.

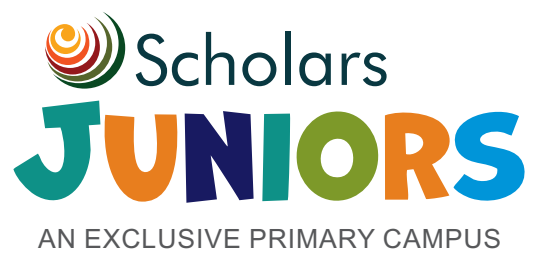

As we step into our 11th year of service, we thank our patrons for being our backbone of success and aim to discover the next-level of education with the same support.
